A member of the Lloyd's Register group

Lloyd's Register Group Limited, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

# Type Approval Certificate

Terminal Efficiency is based upon the results of witnessed tests carried out, and is applicable where the Calculated Breaking Load of products, made in the same manner, comprises the sum of the breaking loads of the component ropes, less a 15% spinning loss.

## Other Conditions

1. This Type Approval Certificate applies only to the resin system used in the termination of cable laid wire rope slings. Terminations as such including Flemish-Lock® is not part of this approval.
2. All terminations are to be made in accordance with Maklock Technical Data Manual, and by suitably trained operators.
3. Sleeves for Flemish Lock® slings are to be manufactured in accordance with Millfield Enterprises' dimensions and drawings.
4. This certificate is a renewal of Type Approval certificate 05/00108(E3). Approval documentation of previous extensions form part of this Type Approval certificate.
5. Type Approval does not eliminate the need for normal inspection and survey procedures required by the Rules and Regulations.
6. If the specified standards are amended during the validity of this certificate, the product is to be re-approved.
7. The application of this Type Approval Certificate will be limited to the relevant scope of the Specified Standards and acceptance thereof by the local authorities.

This certificate is not valid for equipment, the design, ratings or operating parameters of which have been varied from the specimen tested. The manufacturer should notify Lloyd's Register EMEA of any modification or changes to the equipment in order to obtain a valid Certificate.

The Design Appraisal Document LR20102607TA and its supplementary Type Approval Terms and Conditions form part of this Certificate.
